

Business and Politics.

The Democratic party having carried our country, it is for us to prosecute that we do not let it be隅ed and a tariff with a little protection as possible adopted; that law will be removed from stand by or carry out that we do not and if the party can be reformed and its policies made more honest in honor.

Those who have been instrumental in the campaign are to be congratulated on the campaign and what the country has done in their favor.

Congressional election is to be held in both houses and the result is a Democratic House and a Senate.

There is a reason, however, why Mr. Cleveland and his party should not be reelected and reelect them in October, they have been using the country that it was represented by many bridges, that the many were rallied for the benefit of the fact, that the party in power was only the agent of tariff-hawks and greedy monopolies to bring down the masses. Unless the policies of the Republican party are thoroughly understood and cast out, Democracy will be guilty of perpetrating the same outrages and iniquities.

It must, therefore, take every protection yet without lowering the wages of labor; it must give the consumer the necessities and comforts of life at the prices which now prevail, less the amount of duty or tax which will be taken off; it must empower state banks to issue money unrestricted, and at the same time preserve the soundness of the currency. It must do these and other like things, because the failure to do them has constituted the unpardonable sin of the party now in power, and because it has pledged itself to their accomplishment.

Well Mr. Cleveland and his party do these things! Will they even honestly try to do them? Or are their promises in reference to all these matters merely an empty fustion to entice them to get into power? We shall see—see small signs.

Tammany's Triumph.

The tiger is now on top. To the Tammany organization is largely due the Democratic victory. When Cleveland left Buzzard Bay and went to New York and made a deal that insured Tammany's support the Democrats of other states took heart. Previous to this they had no courage to fight, no hope of success.

For Tammany took great pains at Chicago to assure the country that Cleveland could not be elected. But when

Mr. Cleveland bowed to Tammany and broke bread with its schemers, the country began to realize that the full strength of the New York Democracy was to be used in a supreme effort to capture the national as well as the New York municipal and state government. Tammany could afford to let Cleveland because of the great possibilities. Tammany now rules not only on Manhattan Island and Albany, but it will go on and after March 4th may be entrenched at Washington. It will not only control the fate of millions of New Yorkers and statelets inevitably it influences and reaches out into other states and central national policies.

Thus the republic is last brought under the dominion of Boss Tweed's political organization, the most powerful religious-political machine that ever existed. It has captured not only the national organizations of the Democratic party, but it has within its grasp immigrants and independents. Who now will be courageous and strong enough to fight Tammany?

The answer is obvious. There is no political power capable of such a gigantic task overrunning the Republican party and the Stevens, presidential people of the United States will turn to the Republicans to relieve the nation of Tammany's thralldom before President Cleveland's term expires.

The Republicans of Holt.

In looking out of the general disaster to the party, the Republicans of Holt have left them and consolidation, but this party has been disintegrated and scattered. Two years ago our ranks were somewhat shattered, but the disintegrating seems to have been healed up and the vote of November 8th, indicates a healthy condition of the party. The general majority was up to 95 previous years, and in some instances it was greater than ever before. The Republicans are to be congratulated on their good work with all the reasons for gratification on the local results; yet there is one thing that brings sorrow to the party in general. Our candidate for sheriff was slaughtered by traitors in the ranks. Many voters were led by the treachery of a few, and an imbecile man, who is trying to cover past mistakes and get a start in life, has led the rest of us. Aside from this, the party is still too divided to wage definite battles. In the next Democratic victory does not necessarily mean accretion to the party. The Democratic party, it is not at all likely, has gained any permanent strength. Its public record is that of a divided and unorganized mass among our people.

This unsettled state of mind engendered by the calamity hinders our political aims, who resorted to a method for the gain of office, this same feverish state of mind must now be imposed upon the party to insure its longevity. And a failure to do this will turn the wrath, from which the Republicans suffered, upon themselves.

If the Democratic party fails to satisfy these aspirations, then there is a method for the gain of office, this same feverish state of mind must now be imposed upon the party to insure its longevity.

It will be a master work studying four years from now, whether the country will be as prosperous as it has been under Benjamin Harrison, whether business is as brisk, whether the factories are as busy, and the workshops so full of life, whether the workers are as prosperous and contented as they are to day.

This newspaper man, if he is the righting editor, makes too many enemies to be a successful vice presidential candidate.

Union.

—Cooperation will soon be done. Preaching on Sunday morning and evening by Elder Almoner.

—Prayer meeting Saturday night, will be led by Maude Curtis. The subject is "King."

Quite a number of relatives were visiting the family of John Curtis, last Friday.

—A wagon load of young folks from Forest City, were visiting at the home of James Curtis, one evening last week.

The supper given at the Union school house, for the benefit of the union cause, was well attended. Amount received, \$112.

Armeny.

—There's nothing so forgive as a woman. There's a gentle hearted widow of African County, Mrs. W. T. Carver, who twenty years ago, helped to Lynch her husband, but is about to marry her husband. Vengeance will overtake him at last.

Weaver is probably rubbing his hands congratulating himself for having got even with the Republican party. It seems to be seen what pay he gets from the Democrats for doing their dirty work for them.
